## A BRIEF STUDY ON THE CHALLENGES FACED BY PHYSICAL EDUCATION PERSONNEL IN DELIVERING ONLINE CLASSES DURING COVID-19 SITUATION

Dr. Charanjeetsingh Mahajan

### Introduction

Covid 19 has caused destruction across the globe, this virus has not just made extreme harm life and mankind yet it has flipped around our reality. The count of individuals passing on has gone past our computations, the time is by all accounts halted as the air we take in is no more secure, we cannot go out and meet our companions and friends and family. We have confronted plenty of misfortune in this time as our life is no equivalent as it was previously, very much like our public activity our schooling life has additionally endured a lot. It was accounted for that practically 1.2 billion of youngsters from an aggregate of 186 nations across the world didn't went to study classrooms and schools during the pinnacle moth of this pandemic for example April 2020 to May 2020 (UNESCO,2021) and the current circumstance is likewise same. In India the students are seriously impacted because of this explosion of Covid-19 pandemic across every one of the states in our country. The public authority needs to close every one of the schools and we needed to move from customary method of instructing to computerized stages. Very much like different subjects, actual schooling was likewise moved to online mode, this shift from customary instructing to the internet based mode was very bizarre in this calling, as physical education was a subject which was essentially identified with proactive tasks, substantial development, playing and learning through proactive tasks. Thus, this abrupt shift just restricted this subject to some hypothetical classes and no proactive tasks like previously. Along these lines, in light of this there were many explores done to cause actual schooling to acclimate to the current circumstance and adjust to it so our understudies can be gigantically benefited towards it. Along these lines, the fundamental goal of this current review was to get a view of the physical education personals who are presently instructing in the online mode in India about the effect and adequacy of online educating during this pandemic.
