

**THE CONTEXT:**

The institute is running graduate and post graduate courses. The Institute has two LLB programs, i.e., LL.B. (3 years) Degree course, and BA LLB (5 years) Degree course. Besides, the institute conducts Six Post graduate programs, two LL.M. (Business Law & Criminal Law), four PG Diplomas i.e., Taxation Laws, Labour Laws, Cyber Laws, Intellectual Property Laws. The institute is recognized Ph.D. research centre in Law. The area where the college operates appears as urban; however, the region i.e., Marathwada is draught prone, the localites are indulged in a normal day struggle for their existence. The region is badly known for farmer's suicide. People residing in this area do not afford to pay huge fees towards education, higher education, thus drop out of higher education remains very high in the region.

**THE OBJECTIVES OF THE PRACTISE: -**

The institute works with a mission "Fiat justitia, ruat coelum", which means "Let Justice Be Done Though Heaven Falls". This mission is reflected through prospectus, website, citizens charter, college magazine. To fulfil this mission, the college is standing tall on all footings for the students from marginal communities. Though being a single faculty college, the college has a higher amount of student strength, one of the reasons behind students turning to seek admission into this college, is the lowest amount of fees charged, that too with the excellent service. Thus, keeping in view of the mission, the college has decided not to send any proposal of fees increase to the concerned authority, whereas the neighbouring institute is charging double or triple fees than this institute is charging. The institute fully believe in the context of judgement as provided in M.P. Vashi Versus State of Maharashtra.

**THE PRACTISE: -**

With this objective the institute has charged the lowest fees as compared to the other colleges in region. The fees charged for each course is mentioned below. The fees charged as narrated below is such less that, student opting to choose another field turns to choose law as a career option. The institute believes in providing all the facilities at minimum cost to the students. This reduced fee practise has become such an ideal practise that, students in general are choosing this institute over other institutes. On the same footings, the college does not charge

any fine to the students for late submission of library books, non-wearing of uniform or fine as an action for any indiscipline.

**OBSTACLES FACED/ PROBLEMS ENCOUNTERED: -**

Due to reduced fees collection from the students, it becomes very hard for the college to maintain few things. However, that has never been an issue for the institute while designing curricular and cocurricular activities. The institute has 2 Law programs i. e. LLB (3 years) degree programme & BA LLB (5 years) degree programme, which is aided by the Government of Maharashtra. The salary of the teaching and non-teaching staff of aided course is been managed by Government of Maharashtra, therefore the Tuition fees collected by the institute has to be repaid to the Government. Whereas the expenses of non-Grant courses, are borne by the institution itself. On many occasions, it becomes very hard to manage the expenses, still the institute has never compromised with the quality of education.

**IMPACT OF PRACTISE/ EVIDENCE OF SUCCESS: -**

The impact of this practise resulted in less drop out, turning out after a gap of several year to complete the remaining portion of education. The resultant admission into the college has been increased. Students from marginal communities are regularly attending the college and taking

education for their livelihood. Most of the students graduate from the institute report to have started their own practise and leading a happy life.

**RESOURCES REQUIRED: -**

Budgeting or finance is the requirement of any educational institute to run the institute. The institute is managing its affairs in so less amount with full infrastructure. Library, the books in the library is the biggest resources available to institute to run academic courses. The library of college has more than 37000 books covering wide subjects. So, the college has adopted the practise to issue as many books required by the students.
